

AIMS

African Institute for
Mathematical Sciences
RWANDA

Academic Calendar for the AIMS Rwanda 2025-2026 regular Master's Program

Type of course	Weeks	Course 1	Course 2		Course 3
Skills (Core) Phase					
Skills Courses Block 1 (2025)	Sep 01- Sep 05	Mathematical Problem Solving by Tovondrainy Christalin Razafindramahatsioro (University of Antananarivo, Madagascar)	Computing, R and LaTeX by Lema Logamou Seknewna (AIMS RIC)		English and Communication by Kai Arste
	Sep 08 - Sep 12				
	Sep 15 - Sep 19				
Skills Courses Block 2 (2025)	Sep 22 - Sep 26	Programming with Python by Yae Ulrich Gaba (AIMS RIC)	Physical Problem Solving by Alain Dikande (University of Buea, Cameroon)		English and Communication by Kai Arste
	Sep 29 - Oct 03				
	Oct 06 - Oct 10				
Skills Courses Block 3 (2025)	Oct 13- Oct 17	Introduction to Statistics and Probability by Evans Gouno (Universite Bretagne Sud, France)	Differential equations and modelling by Blaise Tchapnda (AIMS Rwanda)	Numerical linear algebra By Franck Kalala (University of Lubumbashi)	English and Communication By Kai Arste
	Oct 20- Oct 24				
	Oct 27- Oct 31				
Reading week 1: Nov 03- Nov 07

Mathematical Sciences
RWANDA

Review (Elective) Phase

Review Courses Block 1 (2025)	Nov 10 - Nov 14	Introduction to Financial Mathematics by Frederic Vrins (Université Catholique de Louvain, Belgium)	Big Data analytics with Python by Lema Logamou Seknewna (AIMS RIC)	Statistical regression by Fabrizio Ruggeri (CNR-IMATI, Milano)
	Nov 17 - Nov 21			
	Nov 24 - Nov 28			
Review Courses Block 2 (2025)	Dec 01 - Dec 05	Classical Mechanics by	Partial Differential Equations by Zoe E. Wyatt (University of Cambridge, UK)	Statistical Machine Learning by Ernest Fokoue (Rochester Institute of Technology, USA)
	Dec 08 – Dec 12			
	Dec 15 - Dec 19			
Dec 20, 2025– Jan 04, 2026 (Christmas Holliday)				
Review Courses Block 3 (2026)	Jan 05- Jan 09	Quantum communication and cryptography By	Algorithm and data structure By Jan Hazla (AIMS Rwanda)	Graphs, Matroids and Designs By Nancy Ann Neudaeur (Pacific University)
	Jan 12 - Jan 16			
	Jan 19 - Jan 23			
Review Courses Block 4 (2026)	Jan 26 – Jan 30	Topological data analysis by Olakunle Abawonse (AIMS Rwanda)	Data driven Optimization by Abebe Gelatu (AIMS Rwanda)	Stochastic models by Aklilu Zeleke (Michigan State University)
	Feb 02- Feb 06			
	Feb 09 – Feb 13			
Reading week 2: Feb 16 - Feb 20				

AIMS

African Institute for
Mathematical Sciences
RWANDA

Review Courses Block 5 (2026)	Feb 23 –Feb 27	Database and Data Management by Hippolyte Tapamo (University of Yaoundé I)	Signal processing by Paul Taylor (National Institute of Mental Health, USA)	Stochastic differential equations By Mouhamadou Sy (AIMS Senegal)
	Mar 02-Mar 06			
	Mar 09-Mar 13			
Review Courses Block 6 (2026)	Mar 16-Mar 20	Numerical Methods by Andreas Rupp (Saarland University, Germany)	Introduction to neural networks by ()	Actuarial Mathematics by Debbie Falden (University of Liverpool, UK)
	Mar 23-Mar 27			
	Mar 30- Apr 03			
	Research Essay Phase			
Research Phase (eight weeks)	Apr 06-Apr 10			Research Phase/Essay writing
	Apr 13-Apr 17			
	Apr 20-Apr 24			
	Apr 27-May 01			
	May04-May 08			
	May11-May 15			
	May18-May 22			
	May25-May29			
Exam preparation	Jun 01 - Jun 05		Exam Preparation (Preparation of Oral Presentation of the Structured Master Degree thesis) Oral	
Oral Presentation	Jun 08 - Jun 12		Presentations Graduation (tentatively on June 26, 2026)
